

Biosphere Experiment

How Are Energy and Matter Transferred Between Organisms and the Environment?

Investigative phenomenon: [Biosphere 2 Video](#)- Click to watch. Use headphones or turn on captions.

I notice: Please list 5 I notice; include two pictures.

I noticed there were plants. I noticed there were animals. I noticed 8 biospherians. I notice fruits. I noticed it was in Arizona.

I wonder: Please list 5 I wonders; include two pictures.

I wonder why they're doing this experiment. I wonder if the animals tried attacking the biospherians. I wonder how much food was left. I wonder if the biospherians had arguments. I wonder if they fed the animals.

Questions to answer:

1. Would you like to have been a part of this experiment?
 - a. Why? I would like to because i would want to know if we could survive in a mall with and i would like to be challenged
 - b. Why not?

2. Do you consider Biosphere 2 a success?

Cite evidence from the video supporting your claim.

I would say it was but also they had some difficulties and the video does say it was both a success and a failure.

3. What supplies do you think you would require?

Food,water,activities to be entertained,tv

4. What supplies are you accustomed to that you would have to do without?

Probably my phone or headphones.
